it were possible to offer a course that prepares students for the exam itself. He asked the courses, would students be ready to sit for the exams?

Dr. Alsamara indicated that we could prepare students to sit for the exam. “The biggest prize is the certificates ... If it can be done, it would be worthwhile to ensure that certification is met. For example, I have taken 10 practice exams. Anyone who sits for certification in these courses will be exposed to the practice exams. We can expose students to practice exams.” It was also mentioned that we may wish to consider adding a course so that students can practice the exams. The Dean asked, are practice exams provided by publishers? Yes and we can link to the site and download the exam. Dr. Coupet asked, is this available in a secondary market? Yes. Further, we can help students access practice test resources.

It was also noted that we are using existing courses; thus, we need to ensure that students properly sequence the courses to complete their chosen concentrations.

Dr. Coupet moved to approve the proposal for the MIS concentration; Dr. Jackson seconded the motion. We are pending an e-vote from the entire body of College Curriculum Committee members.
